

Karolina Dawn Driven

Sitting in the comfort of a recording studio's main control room, Karolina speaks to DJ John Canada of Planet Music fame halfway across the world about her upcoming album and life as an artist walking her own path.

JC: How are you doing Karolina?

KD: I'm good how are you

JC: Absolutely fine. You are a versatile artist because you play all kinds of music, who were your favorite artists/bands and influences.

KD: Ya i think it's very important to keep your music fun and keep it different make sure to keep your listeners interested so they're not bored and not sounding like every other track you've heard and you know that could be accomplished by using different instruments, elements it could be anything that you'd like and you can make it totally stand out. Influences, well let's see... I've liked little things about each different artist so I can't really say that it's just one artist I've looked up to or looked forward to listening to but it's just been a bunch of artists and each has brought something unique to the table so it wasn't just one person it's different artists I thought were really good at the time.

JC: Actually you are in the studio recording your new album?

... If you don't really know me [my album] is the best way to get to know me... I'm giving you all I got.

KD: Ya sure thing I'm actually working on my debut album right now it's basically very personal and it's about who I am, the person I'm becoming, the progression that's taking place in my life, and it's very personal I mean if you don't really know me this is the best way to get to know me. Honestly it's out there, it's out in the open and I'm giving you all I got. You're getting to know me from the inside out so basically it's fun, it's exciting, different and expected the unexpected.

JC: What do you think about these new talents of the music Chris Brown, Rihanna?

KD: Oh I think it's great I mean I personally think Rihanna is doing really well for herself, she's a beautiful girl who's talented has a great team behind her, great producers, great writers you know which makes me really excited because right now I have a great team who's behind me. You know I love working with my co-writer who's also my producer so it makes all the music the whole album very personal which I think a lot of people will relate to.

JC: What is the song everything about?

KD: Everything is about this guy I was seeing about a year and a half a year ago, and he basically took everything away, not physically, just emotionally when I kind of needed it the most and I wrote this song expressing how I felt.

JC: Karolina Dawn would you love to play and perform in Portugal?

KD: I can't wait to play in Portugal, honestly I can't wait to bring my show down there, can't wait to bring my phenomenal dancers down there, it's very exciting I've heard that Portugal music fans are crazy and wild. Which makes it exciting, I'm so looking forward to it.
